BUT AT AN ADVISORY COMMITTEE MEETING TODAY, THEY ALSO EXPRESSED CONCERN OVER 36 REPORTS OF PSYCHIATRIC PROBLEMS WITH CONCERTA -- INCLUDING AGITATION AND SUICIDAL THOUGHTS. THIS IS A 16 YEAR OLD WHO HAD A PSYCHOTIC REACTION WITH THE VERY FIRST DOSE. THERE ARE ALSO CASES OF HEART PROBLEMS POSSIBLY ASSOCIATED WITH CONCERTA. (SU BRIDGE - LISA STARK, ABC NEWS ROCKVILLE, MARYLAND) IT'S UNCLEAR HOW OFTEN THESE PROBLEMS OCCUR.. BUT COMMITTEE MEMBERS POINTED OUT WITH MILLIONS TAKEN ADHD DRUGS, EVEN A SMALL PERCENTAGE OF PROBLEMS COULD AFFECT THOUSANDS OF CHILDREN. THE FDA WILL LOOK AT OTHER ADHD DRUGS, INCLUDING RITALIN, ADDERALL AND STRATTERA FOR SIMILAR PROBLEMS. ALL CARRY WARNINGS. CONCERTA, FOR EXAMPLE IS NOT RECOMMENDED FOR PATIENTS WHO ARE ANXIOUS OR AGITATED. BUT THE FDA BELIEVES THE LABELS NEED TO BE STRENGTHENED. (SOT DR. DIANNE MURPHY/FDA) EVEN THOUGH THE WORDS MAY HAVE BEEN IN THE LABEL, WITH ALL THESE PRESCRIPTIONS AND ALL THESE DOCTORS WHO ARE USING THIS, DO

THEY, ARE THOSE WORDS REALLY CLEAR ENOUGH. TENNESSEE PEDIATRICIAN DR. WILLIAM COOPER SAY - NO MATTER WHAT THE LABELS SAY, ULTIMATELY PARENTS AND DOCTORS NEED TO STAY VIGILANT. (SOT DR. MANY STUDIES HAVE NOW SHOWN EVEN THE NASTIEST LOOKING COASTERS CAN'T HARM YOU. ACCORDING TO THE INTERNATIONAL ASSOCIATION OF AMUSEMENT PARKS AND ATTRACTIONS, THE LIKELIHOOD OF BEING FATALLY INJURED ON A RIDE IS ONE IN 790 MILLION. STILL, EXPERTS ARE CONCERNED THAT FOR THE SMALLER KIDS, THESE RIDES MAY BE TOO MUCH...AND THEY SHOULDN'T TRY TO SNEAK ON THE RIDES. "ONE THING WE KNOW ABOUT KIDS AND YOUNGER CHILDREN IS THAT THEIR HEADS ARE RELATIVELY LARGER IN PROPORTION TO THEIR BODY THEN OLDER PEOPLE AND ADULTS.//THEY MAY BE A LITTLE BIT MORE SUSCEPTIBLE TO SOME OF THESE G FORCES UH (PAUSE) AND SOME OF THE TWISTING AND TURNING THEN SOME OF THE OLDER KIDS ARE." WE HAVE A MEASUREMENT HERE THAT THEY CAN JUST CHECK THEMSELVES THEN WE HAVE AN OPERATOR THAT HAS A HEIGHT STICK WHO WILL DOUBLE CHECK THE PERSON." AND ACCORDING TO THE BRAIN INJURY ASSOCIATION OF AMERICA, THE RISK OF BRAIN INJURY ISN'T IN THE RIDES...BUT RATHER, THERE ARE SOME RARE PEOPLE WHO CAN'T TOLERATE THEM.

WE GET THEM AT THE DENTIST'S OFFICE -- WE GET THEM FROM OUR DOCTORS -- AND MORE RECENTLY -- AT FULL-BODY IMAGING CENTERS THAT HAVE OPENED ACROSS THE COUNTRY -- FEW PEOPLE GIVE X-RAYS MUCH THOUGHT. BUT A NEW REPORT FROM THE NATIONAL ACADEMY OF SCIENCES FINDS THAT EVEN AT THE VERY LOWEST LEVELS -- X-RAYS AND OTHER TYPES OF IONIZING RADIATION HAVE THE POTENTIAL TO CAUSE CANCER. THE STUDY EMPHASIZES THE RISK IS VERY SMALL -- BUT CONCLUDES -- "THERE IS NO THRESHOLD OF EXPOSURE BELOW WHICH LOW LEVELS OF IONIZING RADIATION CAN BE DEMONSTRATED TO BE HARMLESS OR BENEFICIAL" BUT WHAT IS CONSIDERED LOW LEVEL? IONIZING RADIATION IS MEASURED IN MILLISIEVERTS ((MILL'-UH-SEE'-VERTZ)) -- WHICH REPRESENT ENERGY DEPOSITED IN LIVING TISSUE. THE STUDY DEFINES LOW DOSE AS ZERO TO 100 MILLISIEVERTS. TO PUT IT IN PERSPECTIVE -- EACH OF US IS EXPOSED TO ABOUT THREE MILLISIEVERTS OF SO-CALLED BACKGROUND RADIATION FROM THE UNIVERSE EACH YEAR....THE STUDY SAYS ONE CHEST X-RAY ADDS A SCANT ONE-TENTH OF A MILLISIEVERT TO THAT. EVEN AT ONE-TENTH OF A SIEVERT -- OR 100 CHEST X-RAYS -- ONE PERSON OUT OF A HUNDRED WOULD BE EXPECTED TO DEVELOP CANCER AS A RESULT OF RADIATION EXPOSURE. BY COMPARISON -- THE STUDY CONTINUES -- ABOUT 42 OUT OF 100 WOULD BE EXPECTED TO DEVELOP CANCER FROM OTHER CAUSES. BUT EXPOSURE IS MEASURED OVER A LIFETIME -- AND AS IT INCREASES SO DOES THE RISK. THE FINDINGS SUPPORT EARLIER STUDIES -- AND SCIENTISTS SAY MORE RESEARCH IS NEEDED -- ESPECIALLY ON THE EFFECTS OF CAT SCANS -- WHICH TYPICALLY RESULT IN HIGHER DOSES OF RADIATION.

DONALD WESTWOOD WAS FOLLOWING HIS PSA OR PROSTATE SPECIFIC ANTIGEN TEST WHICH LOOKS FOR PROSTATE CANCER. IT WAS WITHIN THE SO CALLED NORMAL RANGE BACK IN 2003....BELOW 4.0. A YEAR LATER...IT WENT ABOVE SIX.

"AT THAT POINT I WENT BACK TO THE UROLOGIST HAD A BIOPSY DONE AND OF COURSE GOT THE GREAT NEWS THAT EVERYONE LOOKS FORWARD TO: MR. WESTWOOD YOU HAVE PROSTATE CANCER." IT USED TO BE THAT DOCTORS PERFORMED A PROSTATE BIOPSY LOOKING FOR CANCER ONLY IF THE PSA READING WAS HIGHER THAN 4.0...THE SO CALLED NORMAL CUTOFF. BUT A NEW STUDY, IN THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION FINDS THERE IS NO GOOD CUTOFF OF PSA THAT CATCHES MOST CANCERS AND WILL ALSO NOT RESULT IN MANY WORKUPS WHEN THERE'S NO CANCER THERE-SO CALLED FALSE POSITIVE TESTS. THAT NORMAL CUTOFF IS FAR FROM ADEQUATE: BIOPSIES DONE FOR A PSA READING OF 4.1, THE TRADITIONAL VALUE FOR DOING A BIOPSY, DETECTED ONLY ONE OUT OF EVERY FIVE CANCERS. "WE REALLY NEED TO FIND SOMETHING ELSE THAT'S GOING TO HELP US IN ADDITION TO THE PSA THAT IS GOING TO CLEARLY DEFINE REALLY WHICH CANCERS WE NEED TO TREAT AND WHICH ONES WE DON'T NEED TO TREAT." NO STUDIES YET SHOW THAT DOING PSA'S LOWER DEATH RATES DUE TO PROSTATE CANCER. SO IF YOU LOWER THAT THRESHOLD VALUE OF DOING A BIOPSY, SAY FROM FOUR TO TWO, YES, YOU'LL DO MORE BIOPSIES AND YOU'LL DETECT MORE CANCERS. BUT MANY OF THOSE CANCERS WON'T BE KILLERS. IT WAS RECENTLY RECOMMENDED TO LOWER THE CUTOFF TO 2.6, BUT THAT WOULD ONLY DETECT 40 PERCENT OF CANCERS, AND AROUND ONE IN FIVE WOULD GET BIOPSIED WHEN THERE IS NO CANCER THERE. "EACH PATIENT NEEDS TO BE INDIVIDUALIZED.//YOU NEED TO GET A FAMILY HISTORY A MEDICAL HISTORY YOU NEED TO REALLY FIND OUT//WHAT THEIR RACE IS WHAT AGE THEY ARE WHAT OTHER MEDICAL DISEASE MAY OR MAY NOT NEED TO BE TREATED." SO, THE TEST STILL HAS A PLACE. DONALD IS THANKFUL HE GOT HIS PSA TESTED...AND ACTED ON IT WITH SURGERY. I'M THE POSTER CHILD FOR THIS BECAUSE I FOLLOWED MY PSA WHEN IT WAS DANGEROUS I DID SOMETHING ABOUT IT ." BUT THE FACT IS, THERE IS NO DANGEROUS, OR NORMAL PSA FOR THAT MATTER....IT ALL DEPENDS ON EACH INDIVIDUAL PERSON.

OWEN JOHNSON IS A MAN WITH A MISSION. HE'S NOT A DOCTOR, OR A RESEARCHER, BUT HE'S DOING WHAT HE CAN TO FIND A CAUSE, A DIAGNOSIS, AND A CURE FOR INFLAMMATORY BREAST CANCER. (OWEN JOHNSON SAYS, NEITHER MARILYN NOR I

HAD ANY IDEA WHAT IBC WAS.) JOHNSON'S MISSION BEGAN MORE THAN SEVEN YEARS AGO WHEN HIS WIFE MARILYN GOT SICK. AFTER MONTHS OF WONDERING WHAT WAS WRONG, SHE WAS FINALLY DIAGNOSED WITH INFLAMMATORY BREAST CANCER. (JOHNSON SAYS, AFTER WHAT WE CALL EVERY TREATMENT KNOWN TO MAN SHE DIED AT AGE 51, 15 MONTHS LATER.) IBC USUALLY DOES NOT SHOW UP IN MAMMOGRAMS AND DOES NOT DEVELOP AS LUMPS IN THE BREAST. U.W. BREAST CANCER SPECIALIST DR. JULIE GRAYLOW SAYS EARLY SYMPTOMS INCLUDE RAPID, OVERNIGHT SWELLING OF THE BREAST, (DR. JULIE GRAYLOW SAYS, THE BULK OF THE BREAST IS VERY RED, IT'S SWOLLEN.) YOU MAY ALSO SEE A RED, BLOTCHY RASH, EXPERIENCE INTENSE ITCHING AND STABBING PAIN. BUT BY THE TIME THOSE SYMPTOMS HAVE APPEARED, DR. GRAYLOW SAYS THE DISEASE HAS ALREADY TRAVELED THROUGH THE BODY, THAT'S WHAT MAKES IT SO DEADLY. AND EVEN WITH THOSE EARLY SYMPTOMS THE DISEASE IS OFTEN MISDIAGNOSED AS A BREAST INFECTION OR EARLY SIGNS OF MENOPAUSE. NOW, RESEARCHERS WITH THE NATIONAL CANCER INSTITUTE BELIEVE THE RATES OF IBC ARE ACTUALLY RISING. IN 1988 TWO OUT OF 100,000 WOMEN GOT THE DISEASE.... BY 1999, THAT NUMBER INCREASED 25 PERCENT.... WHILE THE MORE COMMON FORMS OF BREAST CANCER WERE DECREASING. (JOHNSON SAYS, WE DECIDED THE ANSWER WAS IN RESEARCH.) JOHNSON FOUNDED THE IBC RESEARCH FOUNDATION. JOB NUMBER ONE....FIGURE OUT HOW TO FIND THIS AGGRESSIVE CANCER SOONER. (JOHNSON SAYS, THERE MAY TURN OUT TO BE SUCH A THING AS EARLY DIAGNOSIS, TODAY THERE ISN'T.) EARLY DIAGNOSIS MEANS SAVING LIVES.

WHEN YOU WASH YOUR HANDS, YOU REDUCE BACTERIAL COUNTS ON THEM...AND SO WHEN A DOCTOR OR NURSE TOUCHES A PATIENT, AND THE IV LINES THAT ARE BEING USED, THERE'S LESS OF A CHANCE THAT BACTERIA WILL TRAVEL TO THE PATIENT, AND INFECT THE PATIENT. BUT WHAT IF A HOSPITAL WORKER QUICKLY RUNS BACK TO CHECK A LAB...ON THE COMPUTER...OR EVEN PUNCHES THE NUMBERS ON AN IV FLUID DRIP MACHINE? ELECTRONIC RECORDS HAVE CAUSED A SHARP RISE IN THE USE OF KEYBOARDS IN THE HOSPITAL SETTING. IF ONE DOESN'T WASH THE HANDS

AGAIN....IT COULD BE AN ISSUE. THE LATEST RESEARCH OUT OF NORTHWESTERN UNIVERSITY SHOWS COMPUTER KEYBOARDS AND KEYBOARD COVERS HARBER HIGHLY RESISTANT STAPH AND ENTEROCOCCUS INFECTIONS...WHICH CAN LIVE ON THE SURFACES FOR MORE THAN 24 HOURS. IN THAT TIME PERIOD, THE BACTERIA CAN EASILY SPREAD TO BARE, AND EVEN GLOVED HANDS IF IN THE MIDDLE OF WORKING WITH THE PATIENT. "CLEAN YOUR HANDS BEFORE YOU USE THE COMPUTER IS REALLY THE MOST IMPORTANT THING THAT WE CAN DO TO REDUCE THE CONTAMINATION ON THESE SURFACES." THE STUDY FOUND THE MORE TOUCHES TO THE KEYBOARD, THE MORE LIKELY IT WAS THAT BACTERIA WOULD BE TRANSMITTED TO THE WORKER'S HANDS. SO, IT'S ESPECIALLY IMPORTANT WHEN AROUND IMMUNE COMPROMISED PATIENTS THAT IF A KEYBOARD IS TOUCHED, THE HEALTHCARE WORKER NEEDS TO GO BACK AND REWASH, OR USE ALCOHOL BASED CLEANERS. BUT WHAT ABOUT THE KEYBOARDS THEMSELVES? "CERTAINLY AS A SURFACE IN THE HOSPITAL SURFACE IN A HEALTH CARE SETTING IT DOES NEED TO BE DISINFECTED ON A REGULAR BASIS WHETHER ITS ON A DAILY CERTAINLY THE MORE OFTEN YOU DO IT THE LESS CONTAMINATION YOU ARE GOING TO GET." ANOTHER STUDY OUT OF EMORY UNIVERSITY AND GRADY MEMORIAL HOSPITAL IN ATLANTA SHOWS ONE IN FIVE STETHESCOPIES USED BY HOSPITAL DOCTORS WAS CONTAMINATED BY STAPH AUREUS AND OTHER SERIOUS INFECTION-CAUSING BACTERIA. "IT CERTAINLY IS AN IMPORTANT THING TO CONSIDER WE DON'T HAVE A LOT OF STUDIES TO SHOW THAT PEOPLE WERE INFECTED BY CONTAMINATED STETHOSCOPIES BUT CERTAINLY THE MORE ENVIRONMENTAL CONTAMINATION THERE IS THE MORE AT RISK A PATIENT MAYBE SO ANY ENVIRONMENTAL SURFACE SHOULD BE DISINFECTED." IN FACT, WHEN STETHESCOPIES WERE WIPED WITH AN ALCOHOL PAD...THE BACTERIA COUNTS PLUMMETED TO ZERO... AN INDICATION THAT MAYBE DOCTORS SHOULD BE CLEANING BOTH THEIR HANDS...AND THE TOOLS THEY USE...BEFORE SEEING A PATIENT.

WE ARE SUGGESTING THAT THE HEALTH MESSAGES VARY FROM CONTAINER TO CONTAINER AND STATE SUCH THINGS AS DRINKING TOO MUCH NON-DIET SODA MAY CONTRIBUTE TO WEIGHT GAIN. ACCORDING TO THE NATIONAL SOFT DRINK ASSOCIATION, SODAS NOW ACCOUNT FOR MORE THAN ONE OUT OF EVERY FOUR BEVERAGES CONSUMED IN THE U.S. IN ITS NEW REPORT ON SOFT DRINKS, CSPI SAYS BETWEEN 1999 AND 2002, THE AVERAGE TEENAGE BOY WHO DRINKS SOFT DRINKS CONSUMED THE EQUIVALENT OF THREE 12-OUNCE CANS OF SODA A DAY, WHILE THE AVERAGE TEEN GIRL: MORE THAN TWO CANS A DAY. THE GROUP SAYS A 12-OUNCE SODA CONTAINS APPROXIMATELY EIGHT AND A HALF TEASPOONS OF SUGAR AND THESE PRODUCTS ARE CONTRIBUTING TO THE RISE OF OBESITY AND DIABETES IN THE U.S. BUT THE FOOD PRODUCTS ASSOCIATION -- WHICH REPRESENTS SODA MANUFACTURERS -- SAYS IT ISN'T FAIR TO BLAME SODAS ALONE. CALORIES FROM ANY SOURCE IN EXCESS OF ENERGY OUT IS GOING TO POTENTIALLY CAUSE SOMEONE TO GAIN WEIGHT. THE MIRACLE OF WEIGHT LOSS SURGERY...IT WAS AN EASY DECISION FOR SARA TO GET IT DONE. "I SAID YOU KNOW WHAT MY INSURANCE COMPANY WOULD COVER IT SO I DECIDED TO GO AND DO IT." AND APPARENTLY, THAT'S WHAT MANY PEOPLE ARE SAYING, AND DOING. ACCORDING TO A NEW STUDY, THE NUMBER OF INDIVIDUALS HAVING WEIGHT LOSS SURGERY ROSE FROM JUST MORE THAN 13,000 TO MORE THAN 71,000 OVER A FOUR YEAR PERIOD. THE REASON, IN PART, IS BECAUSE OF A 900 PERCENT RISE IN OPERATIONS ON YOUNG SENIORS....PATIENTS BETWEEN THE AGES OF 55 AND 64. "WHAT HAS HAPPENED IS A LOT OF PATIENTS HAVE SEEN THEIR FRIENDS OR RELATIVES WHO HAVE HAD THE SURGERY THEY'VE SEEN THE BENEFITS THAT THE PATIENTS HAVE HAD FROM THE SURGERY. IN OUR PRACTICE ABOUT 80 TO 90 PERCENT OF PATIENTS WE SEE ARE FROM FRIENDS AND RELATIVES OF PATIENTS WE HAVE ALREADY DONE." BUT THE RISE IN SURGERIES IS AN ISSUE: THE PRICE TAG IS NOT A SMALL ONE. HOSPITAL COSTS FOR TREATING THESE PATIENTS INCREASED FROM \$157 MILLION A YEAR TO \$948 MILLION A YEAR. ANOTHER ISSUE: THE NUMBER OF SENIORS MEDICALLY ELIGIBLE FOR BARIATRIC SURGERY KEEPS GOING UP. "RECENTLY THERE ARE A LOT OF STUDIES THAT HAVE COME UP THAT HAVE SHOWN EXCELLENT RESULTS IN PEOPLE WHO ARE OVER 60 YEARS." GOOD FOR THEM, BUT IT COULD BE A BIG PROBLEM FOR MEDICARE. CURRENTLY, LESS THAN ONE PERCENT OF PEOPLE MEDICALLY ELIGIBLE GET THE OPERATION. THE AUTHORS ESTIMATE THAT FUTURE DEMAND FOR WEIGHT-LOSS SURGERY COULD RISE EVEN MORE SHARPLY. THERE IS A BIT OF GOOD NEWS TO ALL OF THIS. PATIENTS WHO GET WEIGHT LOSS SURGERY LOSE 60 TO 70 PERCENT OF THEIR EXCESS WEIGHT. AS A RESULT, THREE OUT OF OF EVERY FOUR WHO HAVE DIABETES SAW THEIR DIABETES COMPLETELY ELIMINATED. AND THE OTHER PIECE OF GOOD NEWS...IN ADDITION TO THE MEDICAL BENEFITS...IS THE PSYCHOLOGICAL PAYOFF. CARELLA LESSEGUE SAYS HER DAUGHTER CYIRA'S PRESCRIPTION WAS FOR HYPERACTIVITY. MOTHER: SHE JUST LAID THERE. I MEAN SHE STARTED TWITCHING A LITTLE BIT JUST LIKE LITTLE THINGS YOU KNOW, AND HER EYES JUST GO UP. BUT THIS C-V-S PHARMACY IN BROCKTON MASSACHUSETTS GAVE HER A BOTTLE OF HEART MEDICATION INTENDED FOR SOMEONE ELSE. MOTHER: SHE HELD IT IN FRONT OF HER READING IT TO ME EXPLAINING TO ME WHAT I'M SUPPOSED TO DO FOR HER. LATER THE PHARMACIST CAUGHT THE MISTAKE AND CALLED LESSEGUE BUT HER DAUGHTER HAD ALREADY TAKEN THE WRONG DRUG. IN A WRITTEN STATEMENT, C-V-S APOLOGIZED TO THE FAMILY AND ADDED CVS/PHARMACY ..."WE ARE DEEPLY COMMITTED TO PATIENT SAFETY AND WORK TIRELESSLY TO ELIMINATE THE POSSIBILITY OF ERRORS. BUT PHARMACY ERRORS ARE SUPRISINGLY COMMON. ACCORDING TO THE INSTITUTE OF MEDICINE THERE ARE AS MANY AS 7,000 DEATHS ANNUALLY IN THE U- S, AND AS MANY AS 5 PERCENT OF THE PRESCRIPTIONS FILLED EACH YEAR ARE INCORRECT - THAT'S 150-MILLION MEDICATION MIX-UPS. DRUG COMPANIES AND DOCTORS ALSO SHARE SOME OF THE BLAME. SIMILAR SOUNDING NAMES FOR VERY DIFFERENT DRUGS CAN CAUSE CONFUSION. CONCERNS ABOUT THE DRUGS-- SEREVENT, FORADIL, AND ADVAIR-- WERE RAISED BECAUSE A RECENT WHISTLEBLOWER AT THE FDA, DR. DAVID GRAHAM, RAISED CONCERNS ABOUT THE DRUG SEREVENT. TO BE ON THE SAFE SIDE, THE FDA DECIDED TO LOOK INTO THE WHOLE MATTER AND THE WHOLE CLASS OF DRUGS. THE POTENTIALLY SERIOUS SIDE EFFECTS FOR SEREVENT, INCLUDING WORSENING ASTHMA AND EVEN DEATH, WERE SEEN PRIMARILY IN AFRICAN- AMERICANS. AFTER A DAY OF PORING OVER THE EVIDENCE, THE FDA DECIDED THAT DESPITE THE POSSIBLE SIDE EFFECTS IN A VERY SMALL NUMBER OF PEOPLE, ALL OF THE ASTHMA

DRUGS IN THIS CLASS SHOULD BE CONSIDERED SAFE AND ALL WILL REMAIN ON THE MARKET. WHILE THE JURY IS STILL OUT ON EXACTLY WHY THE SIDE EFFECTS MIGHT OCCUR, DOCTORS THINK IT MAY HAVE SOMETHING TO DO WITH TAKING A DRUG LIKE SEREVENT ON ITS OWN. THEY SAY THAT THESE KINDS OF ASTHMA DRUGS, WHICH WORK TO OPEN UP THE AIRWAYS, SHOULD ALWAYS BE TAKEN WITH A STEROID INHALER TO HELP KEEP THE LUNGS FREE OF INFLAMMATION. THE DRUG ADVAIR IN FACT COMBINES BOTH OF THESE.

HE WAS BECOMING WHAT MANY WOULD CALL A CARDIAC INVALID. BUT JAMES WAS STARTED ON THIS TREATMENT....AN INFUSION OF A DRUG CALLED NATRECOR. "I WAS VIRTUALLY AT DEATH'S DOOR WHEN I BEGAN THE PROGRAM FOR CONGESTIVE HEART FAILURE HERE." NATRECOR IS AN INTRAVENOUS MEDICATION THAT OPENS UP THE ARTERIES SO THAT THE HEART DOESN'T HAVE TO WORK AS HARD AND CAN PUMP MORE EASILY. "I HAVE BEEN USING THIS MEDICATION IN THE PATIENTS WHO ARE ADMITTED IN THE HOSPITAL REALLY SICK." INCREASINGLY, DOCTORS HAVE BEEN GIVING THE DRUG OFF LABEL...TO OUTPATIENTS UP TO THREE TIMES A WEEK, AT 500 DOLLARS AN INFUSION. NO STUDIES HAVE BEEN COMPLETED YET OUTPATINET TREATMENT WITH NATRECOR. EXPERTS ADVISED THE DRUG SHOULD BE USED ONLY IN THE SICKEST HOSPITALIZED PATIENTS. ONE IMPORTANT STUDY SHOWED THE LENGTH OF HOSPITAL STAY WAS LONG ERIN THOSE ON THE MEDICATION COMPARED TO OTHERS ON ANOTHER DRUG LIKE IT, NITROGLYCERIN. AND THE RATE OF DEATH AFTER 30 DAYS WAS HIGHER IN THOSE WHO GOT THE DRUG COMPARED TO THOSE WHO GOT A DUMMY PLACEBO PILL. BUT THERE ARE DISAGREEMENTS OVER THE DATA'S VALIDITY. "I WOULD ONLY USE IT FOR PATIENTS THAT ARE IN THE HOSPITAL WHO ARE NOT RESPONDING TO CONVENTIONAL THERAPY BUT I DO NOT THINK THAT UNTIL WE HAVE MORE DATA THAT WE SHOULD BE USING THIS DRUG IN LARGE GROUPS OF PATIENTS OR OUT PATIENT SETTING." JAMES HAS HIS OWN OPINION ON OUTPATIENT NATRECOR. TODAY I GO TO THE GYM I WORK OUT I CAN DO AVER A MILE AND HALF ON THE TREADMILL OR I CAN GO TO THE POOL AND SWIM 40 LAPS. MOSQUITOES ... PESKY PREDATORS. I HATE THEM. WHO DOESN'T. BOTH BACKED BY THE CENTER'S FOR DISEASE CONTROL. CONSUMER REPORTS TESTED A LEMON EUCALYPTUS OIL PRODUCT AND ONE MADE WITH THE CHEMICAL PECARIDIN AND LIKE THE RESULTS. SINCE WORLD WAR II, THE GOLD STANDARD REPELLENTS HAVE BEEN THOSE WITH THE CHEMICAL DEET. DEET SMELLS TERRIBLE STILL, DEET HAS KEPT MOSQUITOES AT BAY FOR MILLIONS WITH FEW POTENTIAL SIDE EFFECTS . EXPERTS SAY THE NEW REPELLENTS DO TOO. IT SMELLS LIKE LOTION. IT FEELS LIKE LOTION. I HOPE THAT IT DOESN'T REPEL INSECTS LIKE LOTION. NOT AT ALL, THE LEMON EUCALYPTUS OIL SAYS CONSUMER REPORTS IS PARTICULARLY GOOD. YES THIS IS VERY EFFECTIVE. ACTUALLY, WHEN WE TESTED THIS HEAD TO HEAD AGAINST DEET PRODUCTS 10 PERCENT WE FOUND THAT IT WAS ACTUALLY MORE EFFECTIVE. IF YOU'RE OUTSIDE, WALKING IN THE PARK OR PICNICKING MARTIN SAYS THEY ALL WORK WELL. BUT THEY FOUND REPEL LASTS LONGER ... TWELVE HOURS OR MORE WHILE CUTTER ADVANCE LASTS UP TO SEVEN HOURS AND 10% DEET PRODUCTS FIVE HOURS, THOUGH HIGHER CONCENTRATIONS LAST LONGER.

BUT PARENTS BEWARE THE LABEL WARNS AGAINST USING REPEL ON CHILDREN THREE YEARS OLD AND YOUNGER. AND IF YOU'RE WORRIED ABOUT TICKS, ESPECIALLY ONES CARRYING LYME DISEASE, ONLY DEET PRODUCTS HAVE PROVEN TO WORK, LIKE ULTRATHON TIME RELEASED REPELLENT, CONSUMER REPORTS NUMBER ONE PICK. THIS STUDY IS JUST THE LATEST IN A GROWING BODY OF EVIDENCE SHOWING THAT CHEMICALS FOUND IN COCOA CALLED FLAVONOIDS CAN HELP PROTECT YOUR HEART. THE STUDY OF ONLY 20 PEOPLE WAS SMALL - AND SOME SAY TOO SMALL TO START WRITING PRESCRIPTIONS FOR CHOCOLATE. BUT THE BENEFITS THAT THE PATIENTS SAW WERE SIGNIFICANT. PEOPLE WHO ATE A BAR OF DARK CHOCOLATE EVERY DAY FOR TWO WEEKS HAD LOWER BLOOD PRESSURE AND BETTER BLOOD FLOW THAN THOSE WHO JUST ATE WHITE CHOCOLATE. WHITE CHOCOLATE, WHICH DOESN'T CONTAIN ANY COCOA, DOESN'T HAVE ANY FLAVONOIDS IN IT. SO NOT JUST ANY OLD PIECE OF CHOCOLATE WILL DO. ONLY DARK CHOCOLATE HAS ENOUGH COCOA IN IT TO GIVE YOU THE HEALTHY EFFECTS OF FLAVONOIDS. FLAVONOIDS WORK BY MAKING THE BLOOD VESSELS MORE FLEXIBLE, WHICH PREVENTS THE BUILD UP OF PLAQUE. BUT EXPERTS SAY IT'S TOO SOON TO MAKE A BAR OF DARK CHOCOLATE A REGULAR PART OF DIET, ESPECIALLY IF YOU'RE WATCHING YOUR WEIGHT. IF YOU NEED TO SKIP THE CALORIES IN CHOCOLATE, YOU CAN GET YOUR FLAVONOIDS FROM FOODS LIKE, TEA, ONIONS, SOYBEANS AND WINE.

THESE CHICKENS IN CORONA CALIFORNIA ARE KNOWN AS SENTINELS. THEY'RE SCATTERED THROUGHOUT THE AREA AND REGULARLY TESTED FOR WEST NILE VIRUS. DURING THE FIRST 6 MONTHS OF THIS YEAR LOCAL MOSQUITO CONTROL OFFICIALS FOUND JUST ONE POSITIVE TEST. BUT IN THE LATEST 2 WEEK PERIOD 7 CHICKENS TESTED POSITIVE FOR THE POTENTIALLY DEADLY VIRUS. WE ARE PREPARING FOR THE WORST BECAUSE WE NEVER WANT TO BE UNDERESTIMATING THE VIRUS. LAST YEAR WEST NILE KILLED 7 PEOPLE IN RIVERSIDE AND SAN BERNADINO COUNTIES. THERE WERE MORE THAN 300 NONFATAL HUMAN CASES HERE AND 800 STATEWIDE. NOW LOCAL OFFICIALS ARE WORRIED THIS YEAR COULD BE EVEN WORSE AND THEY'RE WARNING THE PUBLIC TO TAKE PRECAUTIONS. THOSE INCLUDE ELIMINATING STANDING WATER IN BACK YARDS, USING MOSQUITO

REPELLENT, AND WEARING LONG SLEEVED SHIRTS AND PANTS AT DAWN AND DUSK. AN ABNORMALLY WET WINTER AND HOT SUMMER MAY BE CONTRIBUTING TO THE SPREAD OF WEST NILE. THE WET WINTER AND SPRING CERTAINLY HAS CREATED AN AMPLE HABITAT FOR MOSQUITOS AND NOW THAT WE HAVE HOT TEMPERATURES HERE WE REALLY HAVE A GOOD MIX OF WEST NILE VIRUS TRANSMISSION. WEST NILE IS SPREADING RAPIDLY IN SEVERAL OTHER CALIFORNIA COUNTIES AS WELL AND MOSQUITO CONTROL OFFICIALS ARE BEGINNING TO FIND THE VIRUS IN MORE SPECIES OF ANIMALS. HEALTH OFFICIALS SAY THEY'RE DOING EVERYTHING THEY CAN TO SLOW THE SPREAD AND NOW THEY'RE CALLING ON THE PUBLIC TO DO ITS PART. WEST NILE VIRUS FIRST APPEARED IN THE UNITED STATES IN 19-99 IN NEW YORK. IT SPREAD RAPIDLY AND BY 2003 THERE WERE NEARLY 10 THOUSAND CASES AND 264 DEATHS. TO DATE, 650 PEOPLE HAVE BEEN KILLED BY WEST NILE VIRUS NATIONALLY, BUT SINCE 2003 AGGRESSIVE MOSQUITO ERADICATION EFFORTS HAVE DRAMATICALLY REDUCED THE YEARLY NUMBERS IN MOST PARTS OF THE COUNTRY, HOWEVER HERE IN THE WEST OFFICIALS WEST NILE VIRUS MAY STILL BE ON THE RISE.

IT CAN HAPPEN ANYWHERE. SOMEONE'S HEART SUDDENLY STOPS BEATING, AND SO EMERGENCY MEDICAL TECHNICIANS PUSH REPEATEDLY ON THE CHEST... TO KEEP BLOOD FLOWING THROUGHOUT THE BODY. (OPEN) BUT MANUAL CHEST COMPRESSION USUALLY RESTORES... ONLY ABOUT 40 PERCENT OF BLOOD FLOW TO THE BRAIN... AND ONLY ABOUT 20 PERCENT OF BLOOD FLOW TO THE HEART MEANING THAT EVEN THOSE WHO ARE SAVED ARE OFTEN LEFT WITH BRAIN DAMAGE. WE'RE PROBABLY NOT COMpressing HARD ENOUGH. WE'RE PROBABLY NOT COMpressing FAST ENOUGH, AND WE'RE PROBABLY INTERRUPTING TO GIVE BREATHS TOO OFTEN TO BE EFFECTIVE, OR AS EFFECTIVE AS WE COULD BE. THE SOLUTION, SAY SOME PARAMEDICS, IS THIS: A NEW PORTABLE CHEST COMPRESSOR. THE MACHINE ACTUALLY CALCULATES THE PERSON'S SHAPE AND SIZE TO DELIVER THE OPTIMAL CHEST COMPRESSION... JUST THE RIGHT PRESSURE AND FREQUENCY FOR THAT PARTICULAR PATIENT. HAVING USED THIS DEVICE, I'M A TRUE BELIEVER IT'S A

FANTASTIC BENEFIT TO THE FIELD. I FEEL VERY PASSIONATE ABOUT THIS MACHINE AND BELIEVE THAT IT NOT ONLY SAVED MY LIFE BUT ALLOWED ME TO HAVE A COMPLETE RECOVERY. CARALEE WEICH WENT INTO CARDIAC ARREST ON A SAN FRANCISCO SIDEWALK LAST YEAR. HER HEART HAD STOPPED FOR THIRTY MINUTES, BUT FOR MUCH OF THAT TIME SHE WAS HOOKED UP... TO AN AUTOMATED CHEST COMPRESSOR. (CARALEE) IT KEPT ME GOING. IT KEPT THE BLOOD FLOW GOING. IT ALLOWED THE MEDICATION THEY GAVE ME TO CIRCULATE BETTER THROUGH MY SYSTEM. THIS MODEL, ONE OF SEVERAL APPROVED BY THE FOOD AND DRUG ADMINISTRATION, SELLS FOR \$15,000. AND ABOUT A HUNDRED CITIES AND TOWNS NOW HAVE AT LEAST ONE. PRELIMINARY STUDIES SUGGEST THAT PATIENTS WHO GOT AUTOMATED CHEST COMPRESSION WERE 35 PERCENT MORE LIKELY TO ARRIVE AT EMERGENCY ROOMS WITH A BEATING HEART... THAN THOSE GIVEN TRADITIONAL MANUAL CPR. THE AMERICAN HEART ASSOCIATION WANTS TO SEE MORE STUDIES DONE, TO ENSURE THIS DEVICE NOT ONLY INCREASE BLOOD FLOW, BUT THAT THEY ACTUALLY ALLOW MORE PATIENTS A FULL RECOVERY.

YOU EXPECT WHEN YOU GO TO THE HOSPITAL THAT YOU'RE GOING TO GET THE BEST CARE ANYWHERE. IN FACT, THAT THE BEST CARE IS EVERYWHERE, WHEN IT COMES TO MEDICINE IN AMERICA. ACCORDING TO THE LATEST RESEARCH IN THE NEW ENGLAND JOURNAL OF MEDICINE, THE QUALITY OF CARE IS STILL QUITE DISPARATE FROM CITY TO CITY, HOSPITAL TO HOSPITAL. "AND AGAIN IT'S VERY HARD. THE IDEA IS TO PROVIDE CARE BASED ON EVIDENCE IT DOESN'T MEAN WE DON'T PROVIDE CARE BASED ON EVIDENCE, WE DO. THE GOAL OF THE REPORTS: TO GET HOSPITALS TO IMPROVE...WHICH THEY ARE. HOSPITALS BETTERED THEMSELVES AS MUCH AS 33 PERCENT ON 18 INDICATORS OF HEALTHCARE. AND THE WORST HOSPITALS IMPROVED THE MOST. FOR BEVERLY RILEY, SHE WASN'T GETTING ENOUGH CALCIUM...BUT WHAT ABOUT VITAMIN D? AMERICANS AGE 50 AND OLDER ARE BELIEVED TO BE AT INCREASED RISK OF DEVELOPING VITAMIN D DEFICIENCY. THERE'S A LOT OF EVIDENCE THAT CURRENT RECOMMENDED AMOUNTS OF VITAMIN D IS INADEQUATE. AFRICAN AMERICAN WOMEN HAVE LOWER VITAMIN D LEVELS THAN WHITE WOMEN BECAUSE EITHER IS

DECREASED PRODUCTION OF VITAMIN D IN THE SKIN BECAUSE OF INCREASED SKIN PIGMENTATION. SO BECAUSE THE LOWER VITAMIN D WE ARE LOOKING TO LOWER OSTEOPOROSIS BY PROVIDING GREATER AMOUNTS OF VITAMIN D THAN IS ACTUALLY CURRENTLY RECOMMENDED.' VITAMIN D IS KEY IN ABSORBING CALCIUM FROM THE GUT AND DEPOSITING CALCIUM IN THE BONE. AND WHILE MANY WOULD ARGUE THAT TAKING IN MORE VITAMIN D IS IMPORTANT IN RAISING VITAMIN D LEVELS IN THE BLOOD, THE EVIDENCE HAS NOT BEEN CLEAR THAT THIS ACTUALLY SLOWS BONE LOSS. SO, RESEARCHERS AT WINTHROP UNIVERSITY HOSPITAL STUDIED TWO GROUPS OF AFRICAN AMERICAN WOMEN; ONE GOT CALCIUM SUPPLEMENTS AND EXTRA VITAMIN D, ABOVE THE TYPICALLY RECOMMENDED 400 INTERNATIONAL UNITS DAILY. THE OTHERS GOT THE CALCIUM AND A DUMMY PLACEBO PILL...NO VITAMIN D. BEVERLY WAS IN THE STUDY. "WHEN THEY DID THE FIRST BONE DENSITY TEST THEY DID SHOW THERE WAS AS DECREASED BONE MASS ON MY LEFT SIDE PARTICULARLY BY THE END OF THE THREE YEARS THEY SHOWED THERE WAS A GREAT INCREASE." SO WAS BEVERLY GETTING THE VITAMIN D? "I THOUGHT I WAS TAKING VITAMIN D ONLY TO FIND OUT AT THE END OF THE STUDY I WAS TAKING PLACEBO." SO, WHAT DR. ALOIA'S TEAM FOUND, WAS THAT THE VITAMIN D DIDN'T MAKE A BIT OF DIFFERENCE. BONE DENSITY WENT UP, IN BEVERLY'S CASE...BUT ONLY BECAUSE OF THE CALCIUM. AND OVER TIME, THE BONES STILL LOST DENSITY...EVEN WITH AS MUCH AS FIVE TIMES THE TYPICAL VITAMIN D DOSE. "MY BIAS GOING INTO THIS STUDY WAS THAT WE WERE GOING TO SEE A BENEFIT AND WHEN THE RESULTS CAME OUT IT WAS CLEAR THIS WAS NOT BENEFICIAL. IN WHITE WOMEN, MOST PEOPLE BELIEVE THAT IT WILL BE BENEFICIAL, BUT WE WON'T KNOW IF IT IS BENEFICIAL UNTIL THE STUDY IS DONE." FOOD IS ONE BIG ALLERGY REACTION. AND ONE OF THE FOODS SHE'S ALLERGIC TO...IS SESAME. RESEARCHERS AT MICHIGAN STATE UNIVERSITY FOUND A SIGNIFICANT INCREASE IN THE NUMBER OF REPORTS OF HYPERSENSITIVITY TO SESAME SINCE IT WAS FIRST REPORTED IN THE UNITED STATES IN 1950."I HAVE SEEN A 50-100% INCREASE IN THE NUMBER OF PEOPLE TESTING POSITIVE FOR SESAME SEEDS, PARTICULARLY IN PEOPLE THAT ARE EATING FOODS THAT CONTAIN THEM. WE THINK IT'S DIRECTLY RELATED THE CONSUMPTION OF SESAME AND SESAME OIL AND OTHER FOODS THAT MAY CONTAIN BAKERY PRODUCTS, PEOPLE BEING EXPOSED TO

THEM MORE AND MORE." MOST OF THE CASES APPEAR AS SERIOUS CASES OF ANAPHYLAXIS...A SUDDEN, SEVERE, ALLERGIC REACTION. "I BREAK OUT INTO HIVES, ESPECIALLY ON MY FACE, ON MY LIPS I GET BUMPS AND ITCHY THROAT." IT CAN ALSO CAUSE DIFFERENT TYPES OF SKIN REACTIONS BECAUSE OF THE OILS IN THE SEEDS COMING IN CONTACT. THE MOST COMMON FOOD ALLERGY IS DAIRY...FOLLOWED BY EGGS, FISH, SHELLFISH, PEANUTS, AND OTHER NUTS, WHEAT AND SOY. IT'S BELIEVED SESAME ALLERGIES ARE NOW THE NINTH MOST COMMON ALLERGEN. THE PROBLEM IS, SESAME SEEDS ARE EVERYWHERE...ON BREAD, IN SALAD DRESSING....AND USED IN ASIAN COOKING. AND, THERE IS SOME CROSSOVER BETWEEN SESAME ALLERGIES AND OTHER NUTS AND SEEDS. "SESAME SEED CAN BE FOUND IN A VARIETY OF PRODUCTS AND THE INDIVIDUAL CONSUMING THEM MAY NOT REALIZE IT. FOR EXAMPLE, SESAME SEED IS A COOKING OIL, MAY BE FOUND IN FRIED FOODS OR PROCESSED FOODS. AND OF COURSE IF THEY ARE EATING MIDDLE EASTERN FOOD THEY SHOULD ASSUME IF THEY ARE PROBABLY BEING EXPOSED TO SESAME SINCE IT'S VERY COMMON AND PREVALENT IN MIDDLE EASTERN COOKING" THE ONLY WAY TO KNOW IF SOMEONE IS ALLERGIC TO SESAME...IS TO BE TESTED SPECIFICALLY FOR SESAME ALLERGY. AND IF TESTED POSITIVE...THE INDIVIDUAL NEEDS TO CAREFULLY READ THE FOOD LABELS. BUT EVEN SAAVY PATIENTS LIKE JANISE SOMETIMES GET CAUGHT ACCIDENTALLY EATING SESAME. "I JUST KNOW TO STAY AWAY FROM THEM, BUT IF IT'S IN THE FOOD AND I HAPPEN TO EAT THEM THEN I HAVE A REACTION."

THE LESSON MIGHT BE: DON'T BE IN SO MUCH OF A RUSH TO AIRPORT THAT YOU LEAVE YOUR GUN IN YOUR SUITCASE. THAT'S THE EXCUSE A GUY IN FORT MYERS HAD FOR AIRPORT SCREENER. MICHAEL RIFF TOLD POLICE HE WAS RUSHED THIS MORNING TRYING TO MAKE HIS FLIGHT AND DIDN'T THINK TO TAKE THE GUN OUT OF HIS SUITCASE. SCREENER FOUND IT WHEN IT SHOWED-UP ON THE AIRPORT XRAY MACHINE. TURNS OUT HE WASN'T PERMITTED TO CARRY THE GUN ANYWAY. RIFF'S CHARGED WITH A FELONY OF CARRYING A CONCEALED WEAPON.

A TYPICAL HEALTHY DAY AT THE BEACH WITH SUN, SURF AND SAND. BUT ACCORDING TO STUDIES COLLECTED BY THE CLEAN BEACHES COUNCIL, MIXED WITH ALL THOSE FINE GRAINS ARE BACTERIA AND MICROBES THAT COULD INDICATE POTENTIAL HEALTH PROBLEMS. THE STUDIES ARE EYE-CATCHING BECAUSE MOST PEOPLE DON'T CONSIDER SAND UNSANITARY. "THE WATER HAS A LOT MORE DISGUSTING THINGS..." "YOU THINK RINSING YOUR KIDS OFF AFTER THEY'VE BEEN IN THE WATER..DEPENDING ON THE BEACHES WHERE YOU ARE...NOT RINSING THEM OFF, AFTER THEY'VE PLAYED IN THE SAND." BUT STUDIES CONDUCTED OVER THE PAST FOUR YEARS FOUND BEACHES WHERE SO-CALLED "INDICATOR BACTERIA" - LIKE E.COLI - ARE MORE CONCENTRATED IN SAND THAN IN ADJACENT WATER. THE "INDICATOR BACTERIA" SUGGEST THE PRESENCE OF FECAL MATTER, WHICH MAY CAUSE ILLNESS. "IT'S USUALLY IN THE SAND 5 TO 10 TIMES HIGHER THAN THE ADJACENT WATERS...IT'S CERTAINLY OF CONCERN AND WARRANTS ADDITIONAL RESEARCH." RESEARCHERS SAY MICROBES SURVIVE LONGER IN SAND THAN IN WATER. THE POSSIBLE EFFECTS OF CONTAMINATED SAND ON KIDS IS HIGHER, BECAUSE CHILDREN SPEND MORE TIME PLAYING IN DAMP SAND WHERE BACTERIA BREEDS. "A DIRTY BEACH CAN ABSOLUTELY, MAKE YOU SICK. SOME PEOPLE ARE MORE AT RISK, AND THOSE WOULD BE CHILDREN, PREGNANT WOMEN AND PEOPLE WHO HAVE IMMUNE SUPPRESSIVE CONDITIONS" DOCTORS SAY USE COMMON SENSE. WASH OFF SAND WITH SOAP AND WATER IMMEDIATELY AFTER YOU LEAVE. AVOID GETTING SAND IN YOUR MOUTH. DON'T CHANGE DIAPERS ON THE BEACH...AND KEEP THE BEACHES CLEAN. BIRDS LEAVE MORE DROPPINGS IF THEY ARE ATTRACTED TO LITTER ON THE SAND.
